WEAR YOUR SUMMER WARDROBE ALL YEAR LONG WITH VERSATILE AND STYLISH SLEEVE-ONS.

**SLEEVE-ONS CAME** about when Wendy Maniatis found she wanted to wear her favourite sleeveless clothing throughout all seasons.

"I wanted to get more versatility out of my clothes and be prepared for the changing weather," she says. "Kate Middleton has been recycling her clothes, making them look like something she hasn't worn before, and I think it's great."

In December 2011, armed with ideas about colours and style, Wendy set about sourcing a factory in Australia to manufacture her trans-seasonal garments and Sleeve-ons were born.

Made in a variety of stretch fabrics, including velvet and lace,

and available in short, three-quarter or long lengths in a range of patterns, materials and colours, Sleeve-ons are compact and lightweight so they can be carried in handbags and are perfect for travelling. They're also great for refreshing workwear and creating an exclusive look that no one else will be wearing.

"The feedback has been great," she says. "Clients are amazed how many garments they can wear them with."
